

Canvas Parent App

How to create an account - ios or Android device

Note:
Canvas Parent App accounts are separate from parent observer accounts created on the Canvas website. If you already have a Canvas account as an observer, you will need to create a separate account for the Canvas Parent app.

Once you download the Canvas Parent app from the App store or the Play store, you can create an account in the Canvas Parent app. As part of creating an account, you can associate a student with your account. Essential information you will need for the signup process is: your child's unique school Canvas url, along with your child's email address and unique password provided by your child's teacher.

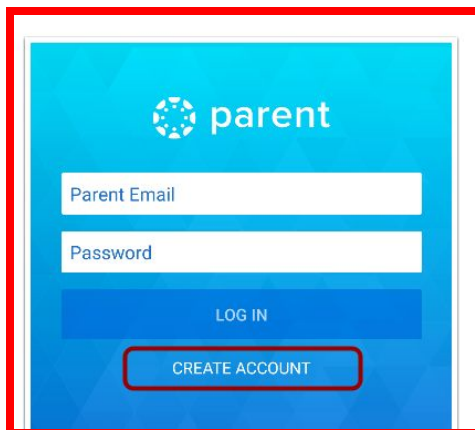

Please work with your child during this setup. You will need your child's D200 gmail address and password to complete the Canvas Parent app setup.

Step 1: Open App

Tap the Canvas Parent Icon on your device

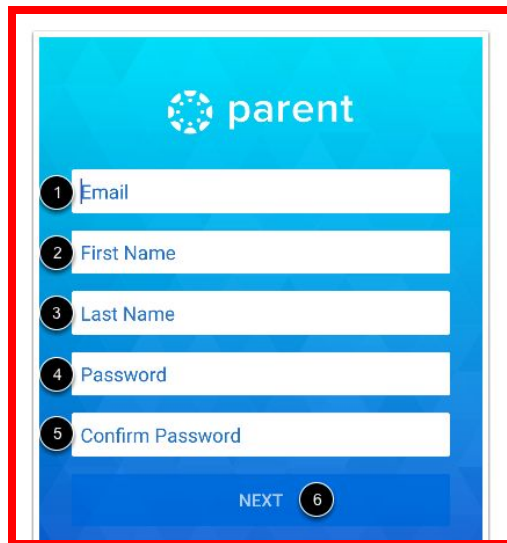

Step 2: Create Account

Click create account

(If you are a wcusd200 employee, you will want to use a personal email (not your wcusd200.org email) to set up your account.)

Step 3: Create Account Details

The screenshot shows a blue-themed form titled "parent" with a circular logo. It contains five numbered input fields: 1. Email, 2. First Name, 3. Last Name, 4. Password, and 5. Confirm Password. At the bottom, there is a "NEXT" button with a "6" in a circle, indicating the next step in the process.

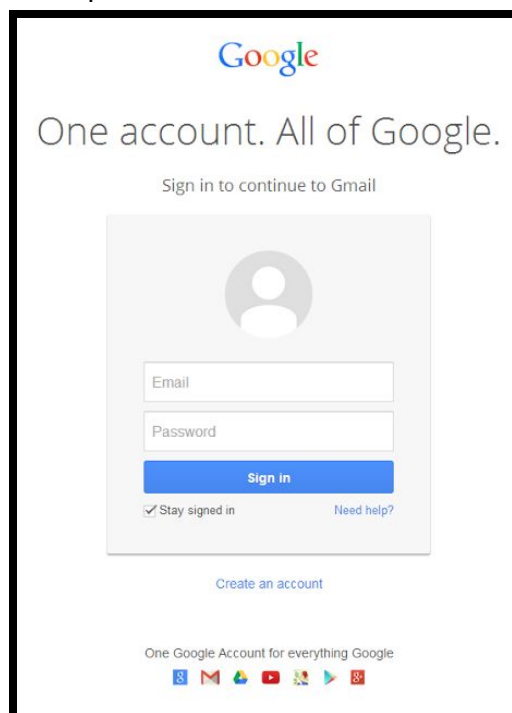

Complete all 5 required fields and click next

Step 4: Add Student & Institution Name

Type " Woodstock WCUSD200" or "wcusd200.instructure.com" for institution name.

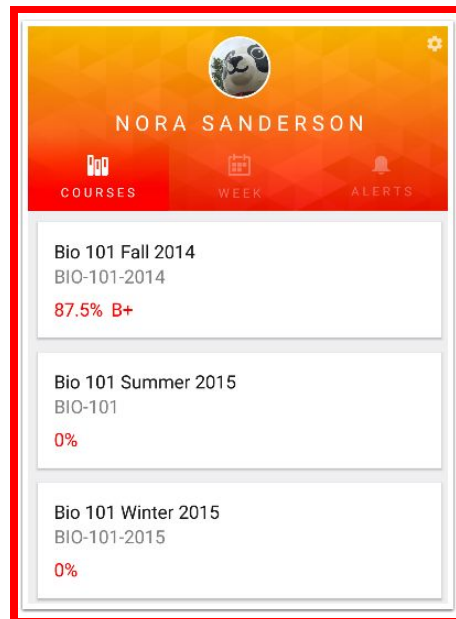

Step 5: Enter Student Login

Use your child's D200 gmail address and password.

The screenshot shows the Google sign-in page. At the top is the Google logo and the text "One account. All of Google." Below this is the text "Sign in to continue to Gmail". The sign-in form includes a profile picture placeholder, an "Email" input field, a "Password" input field, and a blue "Sign in" button. There is a "Stay signed in" checkbox and a "Need help?" link. Below the form is a "Create an account" link. At the bottom, there is a row of service icons: Google, Gmail, Google Drive, YouTube, Google Maps, and Google Play.

Step 6: View Dashboard (you are now logged in as an observer to your child's Canvas account!)

Step 7: Adding additional Students

Click on the gear in the upper right corner, then click on the 3 dots in the upper right corner, and finally click on “add student” to complete the additional students’ credentials.
