**Dates for Preschool Screening  
2019-2020**

Voluntary screenings for all 3-, 4- and 5-year-old children living in the District 200 attendance area will be held throughout the year at the Verda Dierzen Early Learning Center. The purpose of the screening is to identify children who would benefit from specialized help or who are in need of further evaluation before entering kindergarten. Screening information is also used to determine possible eligibility for the D200 grant funded preschool program.

The screening gives information about developmental skills such as how the child uses his or her body (motor skills), speech and language skills, knowledge of basic concepts like counting and colors (conceptual skills), and the child's vision and hearing development.
